31st of October 2016

Luer-Jack high-volume production agreement with AB Euroform MediPharm, Sweden

On the 28th of October 2016, ConceptoMed and AB Euroform MediPharm entered into an agreement for high-volume capacity manufacturing for Luer-Jack. Euroform MediPharm is a ISO 13485 certified long-term partner within development and production of polymer products for world class customers in Pharmaceutical and Medical Technology industries. Euroform MediPharm operates a medical plant Cleanroom class 8 facilities in Motala, Sweden. AB Euroform also operates high-tech industrial injection molding plants in Motala and Tranås in Sweden.

Wind will power the manufacturing of Luer-Jack AB Euroform is owned by Vätterleden Invest, which among other businesses, also owns and operates a wind-mill plant in the southern part of Sweden. The Vätterleden owned wind-power plant produces more electrical power than the total aggregate power consumption for all manufacturing operations in AB Euroform.

'AB Euroform MediPharm have supported the early phase manufacturing for Luer-Jack. I am very pleased to focus on our growth phase together with a great company and great people from Sweden. The agreement with AB Euroform MediPharm enables ConceptoMed to secure deliveries to a growing customer base for Luer-Jack. It is an important milestone for ConceptoMed, for the global growth of the Luer-Jack concept - and ultimately for patients and healthcare workers worldwide – also beyond Europe', said Christian Mide, M.D., CEO and founder of ConceptoMed.

'It is very exciting to continue a fruitful cooperation with the innovative team of ConceptoMed. Now we are thrilled to take our cooperation into high volume production and an even closer cooperation', said Håkan Jimstad, CEO and partner of AB Euroform.

ConceptoMed AS is a ISO 13485 certified, ambitious medtech company serving the global market with innovative product categories and unique proprietary technology.
